# Apple – iOS 17 +

1. Open Settings
2. Scroll down and Select Apps
3. Select Mail
4. Select Mail Accounts
5. Select the Framside account

Once in the account settings, change the SMTP server first.

1. Select SMTP
2. Select the Primary Server, or the one saying smtp.farmside.co.nz
3. Ensure "SSL" is Green/Enabled
4. Ensure the User Name has your full email address, including the @farmside.co.nz (highlighted below)
5. Ensure the Server Port shown is 465
6. Click Done to confirm
