Broadband Performance	<p>See Measuring Broadband NZ for independent information on broadband performance across different providers, plans and technologies. You may experience a higher or lower speed than these averages.</p> <p>Factors such as the performance of your modem, location of the server you’re connected to, the performance of your device and your in-home Wi-Fi setup can impact the speeds experienced.</p>						
Access Type	<p>Wireless Broadband is a broadband service that runs over our mobile network.</p> <p>For more information about access types, visit What is Broadband and Why Should I be Interested? - TCF</p>

Notice Period (Cancellation)	30 Days minimum notice or any lesser notice period agreed between us applies to all Farmside Broadband plans.						
Other Requirements	<p>To use One Farmside voice calling over broadband, you’ll need to plug your home phone directly into the Farmside modem we’ve sent you. Check your phone has a Telepermit sticker.</p> <p>Farmside voice calling over broadband won’t work on other modems.</p> <p>Modem capability and functionality requirements apply when you bring your own modem. Broadband speeds and connection may be affected if you use your own modem.</p>						

Traffic Management	Our policy is to provide you with the best broadband experience possible, so we won't slow down or throttle your connection. However, in some circumstances (such as in the unlikely event of a network attack) we may be required to take reasonable action to protect our customers and effectively manage our network.
Fair Use	<p>Farmside does have a fair use policy for all broadband connections. Note: All broadband plans (including the Unlimited Broadband Pack) are for standard residential use only and are not to be used for commercial types of activity or purposes. Non-residential, commercial purposes will include (but is not limited to) e.g. selling bandwidth to third parties or running an Internet Service Provider.</p> <p>Farmside fair use policy is available here: farmside.co.nz/broadband-terms/#FairUsagePolicy</p>
Effects on Other Services	<p>Your broadband requires mains power and an active broadband connection to work.</p> <p>If power is not available (e.g. during a local power outage) the broadband, and any services which run over it including voice calling over broadband will not work. This includes all calls, even emergency calls to 111.</p> <p>We recommend keeping your modem switched on and having a charged mobile phone ready to use as a backup in case of a power cut unless you have a battery back up at home.</p> <p>Most systems such as monitored medical, security or other alarms should work with voice calling over broadband, but some don't. Therefore, it's important that you call the company that monitors your alarm to ask if their service will work with voice calling over broadband. If not, they may be able to find an alternative for you before you switch to voice calling over broadband.</p> <p>Other services that require a traditional fixed phone line to work, such as older fax machines or the interactive features of Sky Digital are incompatible with voice calling over broadband. Farmside recommend checking with your provider if you have any existing phone dependent services.</p> <p>Broadband with voice includes a voice calling over broadband charge of \$10 per month with free calls to NZ landlines (2-hour limit per call applies).</p>
Complaints and Disputes	<p>Information about our process for customer complaints is available here: farmside.co.nz/contact-us/</p> <p>If we are unable to resolve your concern, you are free to contact the Telecommunication Dispute Resolution Scheme (TDR). For more information on the TDR, please visit tdr.org.nz</p>
