

Five simple steps to get online

Your new Wireless Broadband modem is here and getting set up is a breeze. Just follow these simple steps to get online.

1 It is important that you do not plug your modem in until:

_____ on _____
as your phone number is due to port between
the hours of:

2

Slide the SIM card into the slot on the bottom of your new modem - it will click into place when inserted the correct way around. Connect your phone to the TEL port with the grey RJ11 cable.

3

Plug your modem into a power plug and wait until the light on the side pulses blue - the best place for a strong connection is near a window.

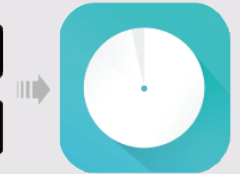

4

Download the Deco app for iOS or Android and follow the simple steps to set up your modem and Wi-Fi network - make sure you select the X58-4G as your modem type in the app.

or

5

Use the network name and password you created in the app to connect your devices to Wi-Fi.

Manage your account the easy way!

With the click of a few buttons, 24/7, you can keep track of your usage, manage your data boosters and a whole lot more.
